Overall: 8,5/10. Brown Otter, in the kitchen with a shotgun, best game.

I've had a lot of fun with Otterbash, and its quite a lot of fun to play.. got this game for a buck 70 lol and love it , great time killer. NEKO - NIN exHeart is a very similar Visual Novel to Nekopara in quite a few Aspects and also quite different at the same time. Both have obvious Resemblances, like that there are 2 Cat Girls from the Start that are Sisters and so on. That is why this really felt like a Copy of Nekopara in the Beginning that was just a little "cheaper" at least from the feel that it gave me. However a little later on you will see that this isnt a complete ripoff and that the Story has a little more depth then at first Glance. I still wouldnt say that this has a brilliant Story/ Plot or anything. It does however give you very cute Catgirls really pretty Art and an okay Story to make it a good overall Experience. I mean if you are looking for cute Catgirls and not a brilliant Story you will be happy with this Game, just dont have too high Expectations. Also buy this in a Sale since the Story is rather Short and doesnt have replay value.

Overall: 7/10

[11/10 would make you waste your time again. The creators truly created something magnificent in the \u201cThe Longest Journey\u201d. They created a world that makes the games want to keep revisiting. The storytelling on this franchise is top notch! The game is like playing through a beautifully crafted novel \(along the lines of JRR Tolkien and C.S Lewis\). I really enjoyed this game and the original.. Not really good if you dont have headphones...](#)

all controls work except fire. game is cant even upload an image or its crashes the game evrey single time the midi is awful try making a game that works for ing sake i would rather use my free program than pay fot this give me my money back. I'd say this is a very niche "buy" if you like these sorts of games. It's part chose your own adventure story, and part "game" but the gameplay is the lesser of the two, by a large margin.

The story is great, the experience playing it can be fun, but once you get the basics (of the extremely basic) combat system, its a slow boring grind. The idea is to have a progression tree based on replaying the game which is great, as your character with different skills explores different parts of the story (slightly). Its also terrible, as you're stuck with dealing with the extremely slow combat system again and again.

My suggestion would be to buy it if you like these sorts of games, and hope that the game gets more polished as time goes on.

*Combat is turn based, slow, and follows an ***EXTREMELY*** predictable set of actions/moves. You have 3 bars, health, stance, and stamina. Health is obviously important, and stance is critical to both defense and offense, and stamina is basically useless as the Romans rotate their troops throughout the battle. You'd think this would mean your opponents would be worn down over time, and you'd be right, except its so minor it basically doesn't matter. You also have no idea of how the overall battle is going, and if you get rotated out of the line before you kill your opponent you get nothing. The game doesn't care if you've knocked a guy down to 1 hp every time you rotate forward, the only thing which counts is kills.

So combat is basically this - you feint to lower your opponents stance, they do the same, and whenever someone is more than ~25 points below max stance they spam recover (with recovers your stance...). Sometimes you click attack. All of this is buried under at least 1 menu. Seriously, its horrific, but the story is almost good enough to justify it.. its really dumb. pros: art style, blitz system

cons: enfuriatingly-unresponsive tank controls. Fun little game. If you like Ichi or other motion puzzlers, you will enjoy this one as well.. Great game, alot of fun, great controls, great camera. I only have two complaints. First, there is only one course, and secondly the camera likes to clip through the floor now and then.. don't wasts your money this game can be done in under an hour and thats the end i was realy disappointed by the lack of content, this game is to short it should have been don't in chapter so they can add more later.

to cap it of rating 2/10 for story, 5/10 for game play, 9/10 for the rest
