I loved this game back in the day,  
But this version has level scaling I never noticed in the old game release.  
if you level up to much in a small ship you will end up only facing more powerful ships and crews. some might like this I personally don't  
I don't mind strong enemy ships But as a pirate I want to encounter weak ships.  
that are easy to take on, and not that they all from that point on are stronger ships that you can easily lose to.

This is just my frustration with this game,  
The Age of Pirates version was better.
